Press Release

Subject: 1991 Cold Case Indictment

Date: October 24, 2022

Report Number: DB910027584

Details:

On 10/14/1991, Linda Little was reported missing with the Daytona Beach Police Department by her friend. Linda Little was last seen on 10/11/1991. The Daytona Beach Police Department investigated Linda Little's disappearance, but Ms. Little's case remained unsolved.

Although between 1991 and 2022, there were little to no leads or evidence developed in this case. The detectives continued to follow up and obtain more information to develop a suspect. If not for the hard work and dedication from the Daytona Beach Police Department's Criminal Investigation Division, it would have not been possible in developing a suspect in this case. Today we are proud to inform the community that an indictment for First-Degree Murder was handed down this afternoon by a Volusia County Grand Jury.

The indictment is for Michael Townson who is currently serving a life sentence in Brevard County for a 2008 First-Degree Murder charge of beating a woman to death in Titusville. Townson is accused of killing Linda Lois Little more than 31 years ago.

If not for the collaboration with the State Attorney and the Daytona Beach Police Department this case would have remained unsolved.
